

# HELLO WORLD IS LISTENING

We have partnered with award winning impact-measurement specialists 60 Decibels to listen and learn from the people who are best placed to tell us about our impact... our users!

Here is a summary of recent findings

HELLO

WORLD

July 2020

# What is a Hello Hub?

Hello Hubs provide unlimited and free access to eight screens, educational software, WiFi internet, solar-power and a community centre.

## We're working in:

14 communities

1 community

9 communities

**Solar Powered, outdoor, internet-connected learning kiosks for education, games and connectivity!**

Children can decorate the panels to make each dome individual

Designed to withstand extreme weather high winds, heavy rain, dust, snowfall...

Internet Service Provision from Roke Telekom in Uganda and Everest Link in Nepal

Windproof and lightweight!

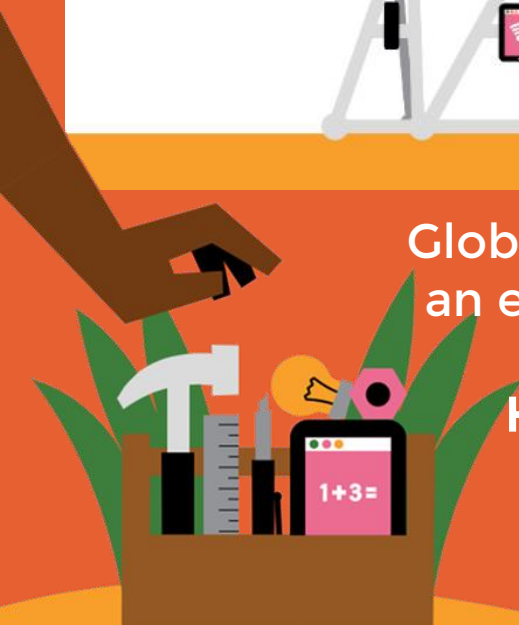

Superfast charging points allow the community to charge their devices

Tablet screens connect to Wifi and come loaded with educational content

Built by the community so they know how to fix and maintain their hub

Globally, 256 million children go without an education, that number is now likely to rise as a result of COVID-19 Hello Hubs provide a solution that is respectful, scalable and sustainable

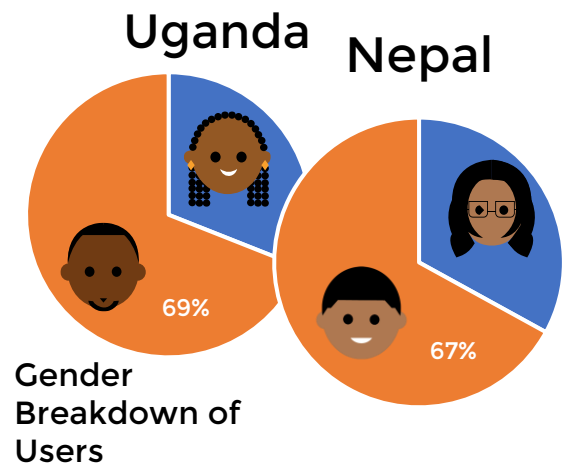

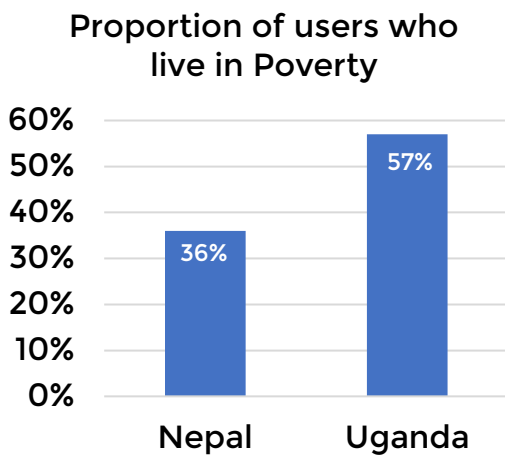

## IMPACT AT A GLANCE:

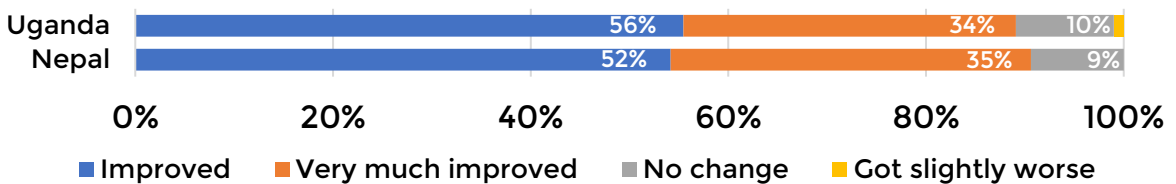

Hello Hubs are providing self-directed learning opportunities to marginalised communities around the world living at or around internationally recognised poverty lines.

Survey results show that the hubs are overwhelmingly and significantly improving the lives of those who use them.

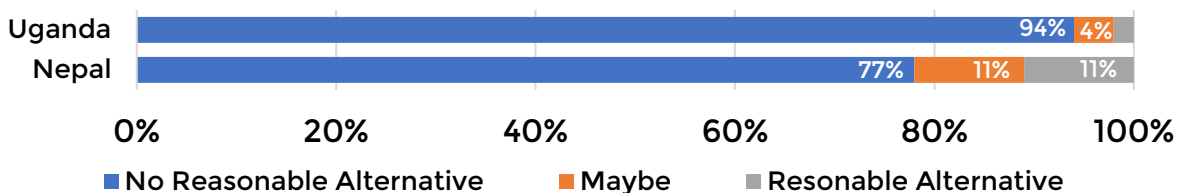

Individuals using the Hubs are gaining new skills and communicating within and across their community. They tell us that without the Hubs this wouldn't be possible.

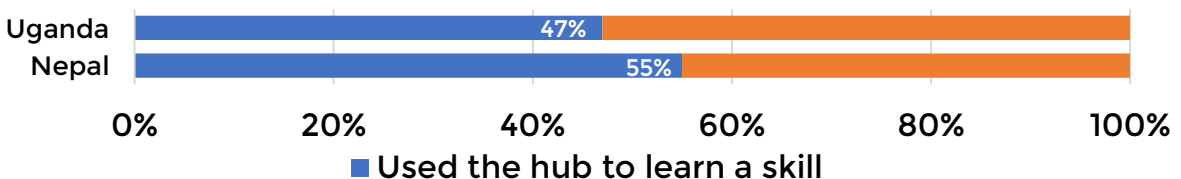

### Perceived Change to Quality of Life due to Hub Access

### Users reporting access to an alternative of similar quality

### Users reporting that they used the Hub to learn a new skill

"I use it to teach my little sisters in the evening." Busawula Hello Hub.

"It helps a lot of people and gives connection to everyone as it is always open and never secured and everyone can use it anytime." Opportunigee Hello Hub.

"I use my money in another way other than buying MBs. It has helped me cut down charges. I use internet for free and anytime". Kabazana Hello Hub

"Kids that played with stone and mud outside play with iPad and phones now" Nepal

"I watch videos on Hygiene promotion and this really helps me keep my family safe." Kabazana Hello Hub.

"I took on online courses of project management via the internet." Youth Centre at Base Camp Hello Hub.

"People who are in schools can learn online for free, you can use internet with no limit. It's free now. I think this is very good chance." Busawula Hello Hub.

"I am a second born child in my family. I stay with my mum who is sick. The internet helps me communicate with my brothers in order to seek medical support. The internet has helped to always be in contact with my brothers." Opportunigee Hello Hub.

## What we've heard

Our survey results included some surprising feedback. Two of the hubs in Nakivale Refugee Settlement were underperforming. After traveling to the settlement, we were able to identify issues and fix the problem.

Feedback is already helping us improve and become even better!
